#### ASPHALTIC CONCRETE (material weight 140 lb/cu ft)

# passes	rolling speed	area coverage sq yd/hr	"productivity in tons/hr by lift thickness, 100% efficiency"			
	(mph)		1.5 inches	2 inches	2.5 inches	3 inches
2	2.5	2163	171	227	284	341
3	2.5	1442	114	152	190	227
4	2.5	1082	85	114	142	171
5	2.5	865	68	91	114	136
6	2.5	721	57	76	95	114

Note: Repeat number of passes over the same area is required to achieve specified compaction efficiency/density. Successive passes over same area results in reduced area coverage and productivity. Rolling speed selected provides impact spacing of a minimum 10 impacts per foot at high vibration frequency setting. Actual compaction efficiency is determined by job conditions.

# Technical Specifications

## BW900-2

### High performance at an affordable price

Bomag's newest ride-on, tandem vibratory roller, the BW900-2, offers the features and benefits of our larger rollers in a smaller package. Equipped with a 18 hp Honda engine, this unit provides 3150 lbs centrifugal force to enhance productivity. Features such as the heavy duty articulation joint, Spring-Applied, Hydraulically-Released (SAHR) brake system, vibration isolated engine mounts and much more contribute to it's strength and durability. Additionally, the combination of compact size, maneuverability and minimal lateral overhang makes it ideal for working in confined areas. The versatility of the BW900-2 makes it the perfect choice for a wide range of both soil and asphalt compaction applications.

### Applications:

- Granular sub-base compaction
- Walk, bicycle and cart paths
- Driveways
- Parking Lots
- Road rehabilitation and patching

### Standard Equipment

- ☒ Hydrostatic travel and vibration drives
- ☒ Travel drive in series
- ☒ Bolt-on oscillating/articulation joint
- ☒ Hydrostatic articulated steering
- ☒ Spring-Applied, Hydraulically-Released (SAHR) parking brakes on both drums
- ☒ Vibration control in travel lever
- ☒ 2 scrapers per drum
- ☒ Plastic water tank
- ☒ Gravity sprinkler system
- ☒ Hour meter / Fuel level indicator
- ☒ Control and warning indicator lights
- ☒ Automatic shutdown at low oil level
- ☒ Lockable engine cover
- ☒ Vandal protected instrument panel
- ☒ Transport lifting points front/rear/central
- ☒ Emergency stop button
- ☒ Corrosion and weather protected ignition switch
- ☒ ROPS with seat belt
- ☒ Back-up alarm

### Optional Equipment

- ☐ Headlights front and rear
- ☐ Special paint
- ☐ Rotary Beacon
